

# About OE Canada

**Did you know:**

- 19.8% of print jobs are subsequently copied
- 20.8% of print jobs are subsequently faxed
- Less than 1% of jobs are duplexed

Let us help your organization understand and gain control of its print environment.

With more than 40 years of market experience, OE Canada offers our clients the best experience, service and solutions the industry has to offer.

Our offices are located in London, ON and Waterloo, ON. These strategic locations allow for responsive and convenient account support from both our award winning service team and our team of account managers.

Recently, OE Canada has undergone a major evolution- our entire infrastructure and back-end technology system has been upgraded in order to provide our clients with the support and growth they require.

No other business is offering the end-to-end solution OE Canada does! We are extremely proud of our holistic approach to account management which considers all facets of your document life cycle- we ask the questions that need to be asked to ensure you receive the services and solutions that solve your problems. In addition, our dealer status allows us remain brand neutral- we can supply you with the *right* product, not the one that we make.

We know our customers are looking for more than the usual "drop and print" approach from years past. Today's clients are savvy buyers with complicated environments. OE Canada brings the most current applications to you- from automated supply ordering and fleet balancing to thorough business reviews and metrics that meet your objectives.

**You are the experts in your field; we are the experts in managed solutions!  
Let us do our job, so you can do yours.**

We are ready to get started and suggest scheduling an introductory meeting to help everyone determine if there is an appropriate 'fit' between our goals.

Our website contains great information to get started, and we'd love to discuss your specific needs with you. Contact us by calling 519-649-5066 to learn more.
